ABOUT

Third-year B.Sc. CS student at Keshav Mahavidyalaya, Delhi University. Proficient in HTML, CSS, JavaScript, Python, REST APIs, and SQL. Delivered production projects including a live freelance client site for a UAE medical equipment company (120+ products, custom logo, SEO), an open-source Windows desktop app, and a college event website — all built and deployed independently under the trade name AkshHQ. Targeting frontend, web development, and data analytics roles.

SKILLS

Languages & Web: HTML5, CSS3, JavaScript (ES6+), Python, C++, SQL

APIs & Backend: Node.js (learning), React (learning)

Data & Tools: NumPy, Pandas, Matplotlib, MySQL, Git, GitHub, Jupyter Notebook

Design & UX: Responsive UI/UX, Mobile-First Design, SEO Basics, Product Modal UI, Logo Design

Concepts: Data Structures & Algorithms, OOP, DBMS, Dynamic Programming

EXPERIENCE

Full Stack Development Intern · Decode Labs

June 2026 – July 2026

Remote internship · Full Stack Development track · Govt-registered tech enterprise

- Contributing to full-stack web development projects using HTML, CSS, JavaScript, and Python, delivering assigned milestones within sprint timelines in a structured, mentor-led remote environment.
- Participating in mentor-led sessions focused on full-stack architecture, REST API design, and industry-standard development workflows to build applied professional skills.

Freelance Web Developer · AkshHQ (Independent)

May 2026 – Present

Operating under trade name AkshHQ · Portfolio: aksh.is-a.dev · Client work detailed under Projects

- Designed and delivered a complete, production-ready B2B website for a Dubai-based medical equipment company within 5 business days — covering design, development, logo creation, SEO setup, and deployment under a formal signed contract.
- Managing end-to-end client relationships independently — from scoping and contracting to delivery, revision cycles, and post-launch domain/hosting handover.

Senior Executive – Tech & Design · Blitz · Keshav Mahavidyalaya

Jan 2025 – Present

- Owned front-end maintenance for 2 live student-facing websites as sole technical point-of-contact on a cross-functional team of 8, shipping HTML/CSS updates actively used by 1,000+ students.
- Reduced content publishing turnaround by ~40% by restructuring the handoff workflow between technical and non-technical sub-teams.

Leadership & Volunteering

Joint Secretary · Project Sukh — NPO

2024 – 2026

- Co-leading outreach planning, coordinating student volunteer teams, and organizing distribution drives to support underprivileged groups. Assisting in project coordination and managing partnerships with local NGOs..

Social Media Sub-Head · Voice of Youth — NGO

2045 – 2026

- Managing official digital communications, designing engaging graphics, and organizing interactive social media campaigns. Analysing engagement metrics to expand audience reach and promote community awareness initiatives.

Treasurer · National Service Scheme (NSS) · KMV

2024 – 2026

- Managing database and funds, maintaining financial records, and overseeing budgeting for NSS chapter events and community service drives at Keshav Mahavidyalaya.

PROJECTS

Boat Link Medical Equipment Website · boatlinkmed.com (live · Dubai, UAE)

May–June 2026

Freelance project under AkshHQ · Design, development, logo, SEO, deployment · Formal signed contract

- Built a fully responsive B2B product catalogue website from scratch for a Dubai-based medical equipment trading company — 120+ products across 15 categories — delivered in 5 business days using HTML5, CSS3, and JavaScript.

- Engineered a client-side product search and category-filtering system in JavaScript, enabling buyers to navigate 120+ SKUs across 15 divisions without page reloads.
- Designed interactive product detail modals for all 120+ products — each displaying image, name, description, specifications, and a direct WhatsApp enquiry button — reducing B2B friction for international buyers.
- Delivered a complete handover package: custom company logo, basic on-page SEO, domain and hosting setup, and deployment — all under a formal signed client agreement.

College Fest Website · [Keshav Mahavidyalaya \(Co-Head\)](#)

Jan 2026

- Designed and shipped the official annual fest website solo in under 3 weeks using HTML/CSS/JavaScript — served as the live event hub for schedules, registrations, and branding on the day of the fest.
- Reduced content-integration effort by 50% by structuring the layout so non-technical team members could update event info without code changes.

ActivityProfiler-Desktop · [Open Source · github.com/akshhq](#)

Mar 2025

- Shipped a privacy-first Windows desktop app tracking app and browser usage locally — zero cloud dependency, no admin rights — built with Python, Tkinter, and SQLite, packaged as a one-click installer.
- Built an analytics dashboard with Matplotlib charts and CSV export for visual weekly usage breakdowns without any data leaving the device.

ResQNet — Emergency Response System · [Open Source · github.com/akshhq](#)

Feb 2025

- Built a Python + FastAPI + WebSocket backend with a live GPS dashboard (Leaflet.js) and a 3-tier risk classification engine (Normal / Elevated / Critical) with time-based alert escalation at 30s and 90s thresholds.

EDUCATION

B.Sc. Computer Science · [Keshav Mahavidyalaya, Delhi University](#)

2024 – 2028

CGPA: 7.12 / 10 (Till 3rd Semester)

Class XII – PCM, CBSE · [Sachdeva Public School, Rohini](#)

2024
